Subject: 8 Hemlock Rd

Ethan,

Chief Parisi and I met last week with Jason Kamps to go over his plans for a new single family home at 8 Hemlock Drive, specifically access for Fire Department vehicles. His plans are in compliance with 527 CMR 1:00 Chapter 18 in that

- The drive from Hemlock will be 20' wide (4' of that may be gravel on either side)
- It will have a vertical clearance of 13 1/2' under any tree branches
- There will be a means of turning around at the drive's terminus

This satisfies all of our requirements.

Please let me know if you have any other questions.

Lt. Kendall Buhl
