July 25, 2022

Attn: Ipswich Planning Board Administrator  
Ethan Parsons

In 1961 my husband and I bought 5 (now 7) Waldingfield Rd and raised our 3 daughters there. After searching for a place to live we were convinced this was the perfect spot. It was safe to wheel a baby carriage up the road, walk with care around corners and for the children to bicycle up the road to visit neighbors. That gradually changed. One incident I remember well before we moved was the day i was shoveling the end of our driveway after a storm and a jeep skidded out of control into the stone wall where I had just left. I am fortunate not to have been a casualty. There are many stories of almost fatal accidents. Imagine what would happen with the Ora Project?

I beg of you not to approve the project. The beauty of this historic road is a treasure for the town. Approval would mean destruction, NOT preservation.

Sincerely,  
Rosie Morgan
