Subject: Ora decision

Good morning Ethan,

Although the decision seems to be strongly in favor of Ora building their corporate headquarters in Ipswich.. As a lifelong resident of Waldingfield Road and an immediate abutter of the entire southern lot line of 55 Waldingfield, I'm writing to please ask you NOT to approve Ora's application.

Please take a few minutes to drive into New England Biolabs (a 'Great Estates' property) & imagine the impact construction on a similar scale will have on Waldingfield Road & consequently the loss of a quiet rural area so dear to a great number of Ipswich residents.

If there would be an option of hiring an outside consultant (funding to be determined) to act as a professional mediator, I believe it would take the lion's share of the extremely important responsibility of determining the future of Ipswich off of the volunteers on the planning board.

In a nutshell, for now please consider delaying your decision until both long term & short term implications are extremely clear.

Very sincerely,
Amanda Smith & Family
65 Waldingfield Road
